# Huerta's Whereabouts Mystery; Is Fleeing to Mexican Coast

W ASHINGTON, D. C., July 18.—Official dispatches today threw no light on the destination of Gen. Huerta and refugees of his party, although it still was generally believed the special train and troop escort were headed for Puerto Mexico.

Should Huerta's except take him to the American lines at Veracrus, the Mexico soldiers probably would not be permitted to pass through unless they surrendered and consented to be interned in the same way as other federals on the border. The Americans would not turn them back to be executed by "Constitutionalists" outside Veracrus.

ammunition to Mexico to be revoked this week.

There is no embargo in existence at the present time and the war department order to prohibit the taking of ammunition to Mexico does not carry any penalty for its violation, army officers may. For this reason the prohibitive order is ineffective and is being violated nightly when wagons loaded with ammunition are crossed above and below the city.

The local "Constitutionalist" leaders also expect the United States to formsily recognize the revolution soon.

Carabajal Besires Ammesty.

Although the "Constitutionalists" have declared they would not recognize Francisco Carabajal as provisional president any more than they did his predecessor, and the United States government likewise will refuse to recognize him, the understanding here is that the new scrutive will hold office for but a short time—only until satisfactory arrangements can be made for the entry of Carranza, the "Constitutionalist" chief.

From diplomats in close touch with the situation it was learned that Carabajal desired only that a general amousty be declared, preserving the lives and property of those who supported Huerta. After hem have been secured, peaceful entry to the capital by the "Constitutionalist" troops will be negotiated.

# BELIEVE DANGER NOW IS AT AN END

V ERACEUZ MEX. July 16.—With the resignation of Ges. Huerta from the provisional presidency, there is every evidence among American and other foreign refugees here of an immediate movement to return to the capital and points in the interior where abandoned interests are

awaiting attention.

Many Americans have expressed their intention of returning and many are making actual preparations to leave at once for their former homes. That the removal of Gen. Huerta means permanent peace to Mexico is doubted in some quarters, but it is generally believed there will be and-leave of their termantal permanent peace.

tion, as Mexicans now look upon him as a good loser.

The Resignation.

Gen. Huerth's resignation was accepted by the senate and chamber of deputies by a vote of 121 to 17. Francisco Carbajal vas then appointed president and took the oath of office at the joint session of deputies and senators.

The resignation was accepted in the following terms:

"Article 1—We accept the resignation presented by Gen. Victorianc Huerta as president of the Mexican United States.

"Article 2—We call Licentiate Francisco Carabajal, minister of foreign reliations to assume the presidency."

Carabajal proceeded to the national palace under an exort of presidential guards and all slons the way was greeted with tumultuous cheering.

Huerta Roseis United States.

The text of Gen. Huerth's resignation follows:

"Deputies and Senators: Public necessity, admitted by the chamber of deputies, by the senate and the supreme court, called me to the surreme magistracy of the republic Later, when in this same hall I had the honor of addressing you in compilance with the constitutional precepts, I promised at all costs to bring about peace. "Seventeen months have pussed, and in that brief period of time I have formed an army with which to carry out that solemn promise. You all know the immeans difficulties which my government has encountered, owling to a scarcity of funds as well as to the manifest and decided protection which a great power of this centionent has afforded to the rebels—so much so that when the revolution had been broken up, seeing that its chief lenders were and continued to be divided, the power in question sought a pretext to intervene directly into the conflict, and the result of this was the outrage committed at Veracru by the American fleet.

"Tamplee lacident Adjusted."
"Success was had, you know, in ad-Many Leave for Interior.

There has been during the last few days a noticeable growth in the number of English, Germans and the better class of Mexicans leaving over the gap toward the interior. Many of these are owners or managers of haciendas and mining property who are going bank, hoping to be able to resume business or to repair damage to property occasioned by abandonment weeks ago. They doubtless will find themselves handicapped by the sipples sate of commerce through Mexican gulf ports, although there is still one German line of steamers plying regularly and bringing quantities of supplies for the interior. There is also one American line whose steamer makes the ports irregularly.

To Beause Freight Service. To Resume Freight Service.

To Beaume Freight Service.

One great impediment to the business activity of partions of the interior, more or less untouched by the ranges of the revolution, will be removed by the probable resumption of oil shipments from the Tampico district and the censequent reestablishment of freight service which has been practically abandoned for lack of fuel oil. As long as as March the railroads refused to ball any but perishable or actually necessary freight shipments.

Railroads and Mines Busy.

Mexican officials are now making all know.

"Yet, after the highly patriotic work achieved by our delegates at Ningara Falls, there are still some who say that I, come what may seek my personal interest and not that of the republic. And that I need not refute this allegation with facts, I tender my formal resignation as president of the republic.

Haffronds and Hines Busy.

Mexican officials are now making every possible effort to get the road restored and are confident of hauling a heavy freight traffic.

The company has kept 400 laborers and a trainload of rails and ties at the gap for a week and is ready to push the work at a moment's notice.

For a mouth merican watermen employed by foreign owned mines and other enterprises have been straggling into the interior in simil groups Many were forced to go by way of Poorto, Mexico, because of the Americans siverment's orders that only Americans having urgent business be permitted to enter by way of Veracruz.
